

Parks & Recreation Commission Agenda

Thursday, August 8, 2024

6:30 PM

City Council Chambers

Commission Members: *Lindsay Matts-Benson (Chair), Karen Beckman (Vice-Chair), Audrey Arneson (Youth), Joseph Arneson, Nick Boulton, Daryl Brown, David Dahlstrom, Chad Kooistra, Jamison Penny, Jessica Raygor*

(Any times listed are approximate – please note that items may be earlier or later than listed on the agenda)

- 1. Roll Call**
- 2. Receive Public Comment**
- 3. Approval of Meeting Minutes**
 - a. Approval of the June 4, 2024 Meeting Minutes
- 4. Business Items**
 - a. Provide Park Dedication Recommendation for 2865 N. Hamline Ave.
 - b. Prepare for Joint Meeting with City Council on September 16, 2024
- 5. Other Business**
 - a. Departmental Updates
 - b. Other New or Relevant Communication Items
- 6. Adjourn**

Roseville Parks & Recreation Commission Agenda Item

DATE: August 8, 2024

ITEM: 3.a.

ITEM DESCRIPTION: Approval of the June 4, 2024 Meeting Minutes

Background

Enclosed is a draft of the minutes of June 4, 2024. Please be prepared to approve or amend.

Recommendation

Approve/amend meeting minutes of June 4, 2024.

Attachments

1. 6. Minutes - June 4

**ROSEVILLE PARKS AND RECREATION COMMISSION
MEETING MINUTES FOR
JUNE 4, 2024 6:30 p.m.**

PRESENT: A. Arneson, J. Arneson, Beckman, Boulton, Brown, Dahlstrom, Kooistra, Penny.
ABSENT: Matts-Benson, Raygor.
STAFF: Johnson.

1. INTRODUCTIONS

2. ROLL CALL/PUBLIC COMMENT

Roll Call Commissioners: A. Arneson, J. Arneson, Beckman, Boulton, Brown, Dahlstrom, Kooistra, Penny.

No public in attendance.

3. APPROVAL OF MINUTES – MAY 7, 2024 MEETING

Commissioner Brown moved to approve the minutes. Commissioner J. Arneson seconded.

Roll Call

Ayes: A. Arneson, J. Arneson, Beckman, Boulton, Brown, Dahlstrom, Kooistra, Penny.

Nays: None.

Abstain: None.

4. BUSINESS ITEMS

a) DISCUSS PARK NAME OPTIONS FOR THE NEW PARK AT 2381 COUNTY ROAD B

Staff provided a brief history of the park naming policy, the process used to collect name suggestions, and the results of the name voting activity completed by the Commission at the May 2024 meeting. Staff also mentioned that a joint meeting is potentially scheduled for August 2024 between the Parks and Recreation Commission and the City Council.

The results of the Commission's name voting activity from the May 2024 meeting were as follows:

- Sunset Park – 10
- Honeybee Park – 5
- West End Park – 4

- Old Oak Park – 3
- Standing Oaks Park – 2
- Cache Park, Nature View Park, Oak Oasis Park, Owl Park, Rosita Park, Woodland Park – 1

Commissioner J. Arneson asked if the large oak trees are located on park property. Staff replied that they are on private property.

The Commission discussed the results of the name voting activity and the potential of requesting community input on the top name suggestions. They agreed that the name Sunset Park fulfills the City's 'Operating Policy #40 – Assigning Names to City Facilities.'

Commissioner J. Arneson moved to recommend the name Sunset Park to the City Council for the new park located at 2381 County Road B. Commissioner Brown seconded.

Roll Call

Ayes: A. Arneson, J. Arneson, Beckman, Boulton, Brown, Dahlstrom, Kooistra, Penny.

Nays: None.

Abstain: None.

b) DISCUSS POSSIBLE PARKS AND RECREATION NEEDS ASSESSMENT

Staff relayed that a parks and recreation needs assessment is a tool that communities use to measure community satisfaction with Parks and Recreation service offerings, and to develop an understanding of current community needs. In addition, a needs assessment could be used as a tool in updating the Parks and Recreation System Master Plan.

Assessment Overview

- Tool used to determine the current and future needs of the Parks and Recreation system.
- Typically provides data on:
 - Resident satisfaction with current offerings
 - Identify community needs and priority
 - Typically paired with other trends analysis and community data

Needs

- Last needs assessment was completed in 2011
- Changes in environment since
 - Increased diversity
 - Changes in approaches to equity
 - COVID-19
- Determine future needs for underdeveloped parcels
- Broad range of potential methodology

- Informal
- Statistically valid survey
- 2011 Assessment Data
 - 26 questions
 - 3,000 survey's mailed – 760 returned
 - Follow-up phone calls
 - Phone option
 - Gauged support for the System Master Plan
 - Sample questions included: park use, facility use, support for park/athletic facility improvements
- 2024 City of Roseville Community Survey Data
 - 400 random samples of City of Roseville households
 - Telephone interview
 - Average interview time of 17 minutes
 - Non-response level of 5.5
 - City household sample projectable with +/- 5.0% in 95 out of 100 cases
 - Parks and Recreation results
 - 94% rate city park facilities as excellent or good
 - Trails are used more often than neighborhood parks
 - 93% rate the upkeep and maintenance of parks as excellent or good
 - 34% of community participated in a Parks and Recreation program within the last year
 - 96% of those who participated were satisfied with experience
 - 2/3 of the community use city trails and pathways at least once a month
 - 95% responded that city facilities meet their needs
 - 70% responded that the city has an appropriate amount of parks and open spaces (17% too little, 14% too many)
 - 67% responded that the city has an appropriate amount of trails and bikeways (19% too little, 13% too many)
- Envision Roseville Data
 - 2,400 engagements
 - Interactive maps
 - Qualitative info
- Next Steps
 - Pull together available data to determine future needs and questions to ask
 - Identify tangible goals for the study
 - Consider methodology
 - Develop a report and uses
 - Timeline

Commissioner Boulton asked if the demographic data was shared for the 2024 City of Roseville Community Survey. Staff relayed that the survey was demographically representative of the community for race.

The Commission discussed potential ways to limit duplicate survey responses.

Commissioner Kooistra expressed his appreciation for having multiple longitudinal data points from various types of data collection as a resource.

Commissioner Boulton asked if upgrading or creating amenities, such as turf or a community center, is ever included in the surveys. Staff responded that this is often considered by staff members, especially when taking budget and revenues into account. They emphasized the importance of being intentional and cautious when potentially suggesting that new or upgraded amenities could be funded by revenue. Additionally, staff noted that it is important not to lead the community toward options that are not supported by the City Council. Commissioner Boulton suggested that the community could be asked if they would support potential new amenities via taxpayer dollars.

Vice-Chair Beckmann asked if the previously collected data represented an appropriate age demographic. Staff responded that there was an effort to capture a range of ages. Specifically, the 2024 City of Roseville Community Survey data was considered statistically valid. However, staff noted that they could not provide details on the specific methods used to collect data on age.

Staff relayed that the potential timing for the Parks and Recreation Needs Assessment could be as follows, though the survey has not yet been budgeted:

- Step 1: Staff pull known data points (summer/fall)
- Step 2: Staff outline specific achievement goals and parameters (fall)
- Step 3: Conduct survey in 2025

Commissioner Brown asked how the data collected by the Parks and Recreation Commission at the Discover Your Parks events was used. Staff explained that some of the information was incorporated into the Envision Roseville data. However, there is concern that some of the responses might be qualitative and one-off.

5. OTHER BUSINESS

a) DEPARTMENTAL UPDATES

- The Roseville School of Dance recital was held on May 18, 2024 - May 19, 2024 at Roseville Area High School
- 7,000 flowers were planted by over 100 volunteers at Central Park Lexington as part of the Flower Power volunteer event
- The 2024 Citywide garage sale will be on May 30, 31 and June 1

- First summer concert for Live at the ROG will be on June 9 at the Central Park Frank Rog Amphitheater
- Roseville's 6th Annual Juneteenth Celebration will be on Saturday June 15 (11 AM – 3 PM) at the Central Park Frank Rog Amphitheater
- Rosefest 2024 will be held on June 24 - June 30
- The Commission for Accreditation of Parks and Recreation Agencies (CAPRA) site visit was completed with staff in May
- The Lexington Park playground replacement request for proposal was released and vendor surveys completed. A vendor recommendation will be brought to the City Council.
- Data continues to be collected on the conversion of amenities (pool, splash pad, parking, etc.) at Rosebrook Park
- An e-mail has been sent out for engagement events for the bike planning committee
- Natural Resource Technical Advisory Commission is currently in the process of collecting information in the parks in order to update the Natural Resources Plan
- July is Parks and Recreation month

b) **OTHER NEW OR RELEVANT COMMUNICATION ITEMS**

Commissioner J. Arneson asked if advertising is located on-site for the Rosefest Pickleball and Disc Golf Tournaments. Staff responded that there is advertising at both the disc golf course and the pickleball courts.

Commissioner Kooistra noted that the newsletter foldout of summer Parks and Recreation events is very helpful.

Vice Chair Beckmann reminded the Commission that they can still sign up to represent the Parks and Recreation Commission at the Discover Your Parks events. She also mentioned that there will be no Parks and Recreation Commission meeting in July.

6. ADJOURN

Meeting adjourned at approximately 7:39p.m.

Respectfully Submitted,
Danielle Christensen, Parks and Recreation Department Assistant

Roseville Parks & Recreation Commission Agenda Item

DATE: August 8, 2024

ITEM: 4.a.

ITEM DESCRIPTION: Provide Park Dedication Recommendation for 2865 N. Hamline Ave.

Background

The City has received preliminary documents for a proposed subdivision that is planned for 2865 N. Hamline Ave. The proposal is to subdivide the parcel that currently contains Roseville Covenant Church to allow for the possible development of a residential lot in the future. The project qualifies for Park Dedication. The cash amount for the one additional unit would be \$4,250. The required land amount would be 10% of .456 acres or 0.045 acres.

The proposed development is located in Constellation C of the Parks and Recreation system. There are no specific plans identified for parkland in this area. For reference and guidance, included in your packet is:

- Park Dedication Ordinance
- City Parks and Facilities map
- Parcel site map
- Preliminary plat map
- Specific guidance from the Parks and Recreation System Master Plan, including the constellation map and goals and policies related to Parks and Open Space acquisition.

The developer has stated a preference of cash-in-lieu of land for the development.

The role of the Parks and Recreation Commission is to review the proposed development in relation to the parks and recreation system plans and goals; and to make a recommendation on whether the City should accept land, cash, or a combination, to satisfy the Park Dedication requirement.

Recommendation

Due to the small size of the potential land dedication, and its location, staff recommends the acceptance of cash to satisfy the park dedication requirement. Staff recommends a motion from the commission to confirm their recommendation of cash, land, or a combination of both, based on the needs and goals of the parks and recreation system.

Attachments

1. 2865 N. Hamline Ave Park Dedication Attachments

The City Ordinances as it pertains to Park Dedication is as follows:

1103.06: PARK DEDICATION:

A. Authority: Minnesota Statutes 462.358, subdivisions 2b and 2c permits the City to require dedication of park land, or cash in lieu of land, as part of the subdivision process in order to fulfill its plans for recreational facilities and open spaces. The City Council, at its discretion, will determine whether park dedication is required in the form of land, cash contribution, or a combination of cash and land. To properly use this authority, the City will base its determination on existing development, the need created by the proposed development, and the plans and policies of the City embodied by the Parks and Recreation System Master Plan, Pathways Master Plan, and Comprehensive Plan.

B. Condition to Approval: Park dedication will be required as a condition to the approval of any subdivision, plat, replat or lot split. The Parks and Recreation Commission shall recommend, in accordance with Statute and after consulting the approved plans and policies noted herein, either a portion of land to be dedicated to the public, or in lieu thereof, a cash deposit given to the City to be used for park purposes, or a combination of land and cash deposit.

C. Park Dedication Amount: The portion of land to be dedicated in all areas shall be 10%. Park dedication fees shall be reviewed and determined annually by City Council resolution and established in the fee schedule in Chapter 314 of this Code, and the fee shall be paid as part of the Development Agreement required in Section 1102.05 of this Title.

D. Utility Dedications Not Qualified: Land dedicated for required pathways, street right-of-way or utilities, including drainage, does not qualify as park dedication.(Ord. 1530, 7/10/2017)

FEES

Park Dedication fees are set annually by resolution of the City Council as part of the fee schedule. Currently, the amount is set at \$4,250 per unit. For non-residential, the fee is calculated as 10% of the fair market value of the property.

LEGAL DESCRIPTION:
Lot 1, Block 1, Roseville Covenant Church, Ramsey County, Minnesota.

SCOPE OF WORK & LIMITATIONS:

- Showing the length and direction of boundary lines of the legal description listed above. The scope of our services does not include determining what you own, which is a legal matter. Please check the legal description with your records or consult with competent legal counsel, if necessary, to make sure that it is correct and that any matters of record, such as easements, that you wish to be included on the survey have been shown.
- Showing the location of observed existing improvements we deem necessary for the survey.
- Setting survey markers or verifying existing survey markers to establish the corners of the property.
- Existing building dimensions and setbacks measured to outside of siding or stucco.
- Showing elevations on the site at selected locations to give some indication of the topography of the site. We have also provided a benchmark for your use in determining elevations for construction on this site. The elevations shown relate only to the benchmark provided on this survey. Use that benchmark and check at least one other feature shown on the survey when determining other elevations for use on this site or before beginning construction.
- Great North Title Commitment No. GNT-2023-1675, dated December 5, 2023, was used in preparation of this survey.

STANDARD SYMBOLS & CONVENTIONS:

"●" Denotes iron survey marker, found, unless otherwise noted.

Goal 2

Parks Development, Redevelopment, and Rehabilitation

Provide a high-quality, financially sound system of parks, open spaces, trails, and waterways that meets the recreation needs of all city residents, offers a visual/physical diversion from the hard surfacing of urban development, enhances our quality of life, and forms an essential part of our community's identity and character.

Policy 2.1: Evaluate and refurbish parks, as needed, to reflect changes in population, age, and diversity of residents, recreational activities preferred, amount of leisure time available, and best practice designs and technologies, and asset management strategies.

Policy 2.2: Orient parks and programs equally to youth activities that focus on community building activities teaching them life-long skills, and exposing them to a variety of recreation experiences, and to adult activities which accommodate adults' needs for wellness and provide a range of social interaction opportunities.

Policy 2.3: Focus parks on passive and active recreational activities and activities that take advantage of the unique natural features. Pursue opportunities for incorporating art and cultural programs, which enrich citizens' mental and emotional well-being, as a complement to primary

physical focus of parks and recreation programs.

Policy 2.4: Organize all parks and facilities so that a component is provided for informal, non-programmed activities—those open to anyone in the community, at any time.

Policy 2.5: Maintain parks and open space according to the standards outlined in the Park Maintenance Manual which recognizes that levels of service must be provided based on the intensity of use and purpose of the site.

Policy 2.6: Use innovative methods for park and facility improvements that offer lower lifecycle costs, even if the initial cost is higher. Develop park and recreation facilities that minimize the maintenance demands on the City by emphasizing the development of well-planned parks, high-quality materials and labor-saving maintenance devices and practices.

Policy 2.7: Promote and support volunteerism to encourage people to actively support Roseville's parks and open spaces.

Policy 2.8: Encourage the preservation of features in parks considered to be of historic or cultural value, especially those features that do not conflict with other park uses and activities. Consider the potential of historic landscapes in parks, including agricultural landscapes or features. Work to perpetuate those landscapes and other features of historic or cultural significance when they are identified through recognized investigations.

Goal 3

Parks and Open Space Acquisition

Add new parks and facilities to achieve equitable access in all neighborhoods, accommodate the needs of redeveloping areas, and meet residents' desires for a range of recreation opportunities serving all ages, abilities, and cultures.

Policy 3.1: Ensure that no net loss of parkland or open space occurs during alterations or displacement of existing parkland and open space. If adverse impacts to parkland or open space take place, ensure that mitigation measures include the acquisition of replacement parkland of equal or greater size and value.

Policy 3.2: As areas of Roseville evolve, and properties undergo a change of use and/or density, land should be dedicated to the community for park purposes to ensure adequate park facilities for those new uses.

Policy 3.3: Determine potential locations and acquire additional park land in neighborhoods and constellations that are lacking adequate parks and recreation facilities.

Policy 3.4: Determine locations for new park and recreation facilities in redevelopment areas as part of the redevelopment process and use the park dedication process to acquire appropriate land.

Policy 3.5: Make continued effective use of the Park Dedication Ordinance. Park land dedication will be required when land is developed or redeveloped for residential, commercial, or industrial purposes. Review annually park dedication requirements in order to ensure that dedication regulations meet statutory requirements and the needs of Roseville.

Policy 3.6: Use park dedication funds to acquire and develop new land in addition to other funding sources.

Policy 3.7: Acquire properties necessary to implement adopted park concept plans and in Roseville's Comprehensive Land Use Plan, and consider other additions based on needs identified in the sector or constellation concept. Acquire land on a "willing seller" basis unless otherwise determined by the City Council.

Goal 4 Trails, Pathways, and Community Connections

Create a well-connected and easily accessible system of parks, open spaces, trails, pathways, community connections, and facilities that links neighborhoods and provides opportunities for residents and others to gather and interact.

Policy 4.1: Develop, adopt, and implement a comprehensive and integrated trails, pathways, and community connections system plan for recreation and transportation uses, including separate facilities for pedestrians, and bicyclists (including off-road unpaved trails for bikers and hikers that offer new challenges while protecting resources).

Policy 4.2: Develop, adopt, and implement a Trails Management Program (TMP).

Policy 4.3: Advocate the implementation of community parkways on the County Road C and Lexington Avenue corridors to accommodate pedestrian and bicyclist movement and inclusion of community character and identity features.

Policy 4.4: Maintain the trail and pathway system through all seasons.

Policy 4.5: Make the park system accessible to people of all abilities.

Policy 4.6: Align development and expansion of non-motorized trails, pathways, community parkways, and other routes with the need to provide connections to and within parks, to open spaces, recreation facilities, and key destinations, as well as between neighborhoods, constellations, and sectors.

Policy 4.7: Educate the public on the advantages and safe use of non-motorized trails, pathways, and community parkway connections.

Policy 4.8: Develop clear and communicative signage and kiosks for wayfinding.

parks, including agricultural landscapes or features. Work to perpetuate those landscapes and other features of historic or cultural significance when they are identified through recognized investigations.

Goal - Parks and Open Space Acquisition

Add new parks and facilities to achieve equitable access in all neighborhoods, accommodate the needs of redeveloping areas, and meet residents' desires for a range of recreation opportunities serving all ages, abilities, and cultures.

Strategies:

- Ensure that no net loss of park land or open space occurs during alterations or displacement of existing park land and open space. If adverse impacts to park land or open space take place, ensure that mitigation measures include the acquisition of replacement park land of equal or greater size and value.
- As areas of Roseville evolve, and properties undergo a change of use and/or density, land should be dedicated to the community for park purposes to ensure adequate park facilities for those new uses.
- Determine potential locations and acquire additional park land in neighborhoods and constellations that are lacking adequate parks and recreation facilities.
- *Determine locations for new park and recreation facilities in redevelopment areas as part of the redevelopment process, and use the park dedication process to acquire appropriate land, prioritizing the purchase of properties adjacent to current park land.
- Make continued effective use of the Park Dedication Ordinance. Park land dedication will be required when land is developed or redeveloped for residential, commercial, or industrial purposes. Review annually park dedication requirements in order to ensure that dedication regulations meet statutory requirements and the needs of Roseville.
- Use park dedication funds to acquire and develop new land, in addition to other funding sources.
- Acquire properties necessary to implement adopted park concept plans and in Roseville's Comprehensive Land Use Plan, and consider other additions based on needs identified in the sector or constellation concept. Acquire land on a "willing seller" basis unless otherwise determined by the City Council.

Roseville Parks & Recreation Commission Agenda Item

DATE: August 8, 2024

ITEM: 4.b.

ITEM DESCRIPTION: Prepare for Joint Meeting with City Council on September 16, 2024

Background

One important role of the Parks and Recreation Commission is to provide resident feedback to the City Council. Periodically, the Commission holds a joint meeting with the City Council to update the City Council on the work that it has completed in the past year, receive feedback, and discuss items that the Commission can work on moving forward. To facilitate the discussion, staff will typically work with the Commission to provide a Request for Council Action (RCA) for inclusion on the Council Agenda.

Attached is a very preliminary summary of work completed in the past year (per staff's recommendation). Based on the conversation at the August meeting, staff will refine this list and create a draft RCA for the Commission to review at its September 3 meeting.

Recommendation

Discuss items that the Commission would like to discuss with the City Council at their joint meeting on Monday, September 16.

Attachments

1. Parks and Recreation Discussion Topic Summary Document
2. 2024 SWOT Analysis
3. 2024 PRC Goals Final

Parks and Recreation Commission Discussion Topic Summary

Major Updates:

- Conducted SWOT (Strength Weakness Opportunity Threat) Assessment
- Reviewed plan of new park at 2381 Co. Rd. B
- Reviewed and provided feedback on a more inclusive playground at Lexington Park
- Discussed approach to replacement of the pool at Rosebrook Park
- Conducted a park tour at Lexington Park and Rosebrook Park
- Provided feedback on new approach to Rosefest
 - Attended many events!
- Provided recommendations regarding Park Dedication
- Discussed the City's approach to land-acquisition
- Reviewed strategies for offsetting the possible loss of Veterans Park.
- Conducted and annual review of, and provided feedback on the deer management program.
- Completed playground replacement at Keya Park.
- Engagement:
 - Participated in four planning meetings for new park at 2381 Co. Rd. B
 - Commission members served on the Bike Planning Committee
 - Commission members are serving on the Natural Resources Plan Technical Advisory Committee
 - Participated in planning meeting for new playground at Lexington Park.
 - Commissioners share information and hear feedback from the public at weekly Discovery Your Parks events throughout the summer.
- Received report on, and provided feedback regarding Reach for Resources
- Received report on, and provided feedback regarding Parks and Recreation Scholarship Fund
- Provided feedback on the upcoming search for new Recreation Management Software
- Discussed possible methods for a Recreation Needs Assessment

Agenda Items

Meeting Date	Key Agenda Items
2.7.23	• Review Possible Art Piece Donation for the Harriet Alexander Nature Center
3.7.23	• Natural Resources Renewal Program Review and Next Steps
4.4.23	• Review and Discuss Potential Updates to the Parks and Recreation Commission Primer • Review and Discuss Parks and Recreation Commission Goals
5.2.23	• Park Dedication Recommendation - 691-711 Shryer Avenue • Park Dedication Recommendation - 2560 Fry Street • Review and Verify Parks and Recreation Commission Goals
6.6.23	• City Council review of Commissions • Urban Forestry and the Accelerated Emerald Ash Borer Program
8.3.23	• Review 2022 - 2023 Deer Management Program and Discuss Potential 2023 - 2024 Approach

Parks and Recreation Commission Discussion Topic Summary

	Commission Discussion Regarding Council Review of Commission Roles and Responsibilities
9.5.23	Continue Review of Commission's Role and Responsibilities
10.3.23	- AARP Walk Audit Project - Review Summer Entertainment Series - Review Concept Plan for new Park at 2381 County Road B
11.9.23	- Rosefest 2024 Planning - Commission for Parks and Recreation Accreditation Overview 2024 Meeting Calendar Draft
12.5.23	- Review DRAFT 2024-2025 Parks and Recreation Two-Year Strategic Workplan - Parks and Recreation Commission Goals
1.2.24	- Planning Process for Updating Natural Resources Management Plan - Reach for Resources and Parks and Recreation Fee Assistance Year in Review
2.6.24	- Discuss Naming Process for New Park at 2381 County Road B - Discuss Possible Solutions to Mitigate the Possible Loss of Veterans Park - SWOT Analysis of Parks and Recreation System
3.7.24	- Complete SWOT Assessment - Review Rosebrook Park Upgrades Engagement Survey and Strategy
4.2.24	- Summer Recreation Programs Update - Review of Lexington Park Playground Replacement Plan and Request for Proposal
5.7.24	Park Dedication Recommendation: 210 County Road B2Review and Verify Parks and Recreation Commission Goals
6.24.24	- Discuss Park Name Options for the New Park at 2381 County Road B. - Discuss Possible Parks and Recreation Needs Assessment

Strengths, Weaknesses, Opportunities, and Threats Analysis			
Strengths	Weaknesses	Opportunities	Threats
What do you think we do well?	What do you think others do better than us?	What trends and conditions do you think exist that may have a positive impact on what we do?	What trends or conditions do you think exist that may negatively impact us?
Music/concerts in parks	Program registration website	Volunteers	Water quality
Walking and bike paths	Non-traditional park spaces	Increasing adult program offerings	Invasive species
HANC boardwalk	Dog parks	Partnerships with small business	Climate change
Working towards more diversity	Community gardens	General partnerships	Deer population
Central Park Arboretum	Speed of change when implementing new ideas	More marked paths and bike lanes (wayfinding)	Coyote/turkey population
Park maintenance	Disseminating information via non-electronic means	Bike parking infrastructure (paths to connect parks)	Park security
Volunteers	Display cases at City Hall (not Parks and Recreation)	Non-traditional program offerings	Impacts related to people experiencing homelessness
Rosefest	Permanent skate park	Invite outside groups (beyond the city) to present at Commission meetings (similar to a Lunch and Learn)	Loss of park land
Parks and Recreation offerings	Lack of community center	Pursuit of state funding	Impacts related to Campus Master Plan
Park upkeep and maintenance	Inflexibility to pursue greenspace when opportunities exist	Law enforcement/park staff partnerships for older kids	Availability of open space
Decisive decision making	Ensuring all residents feel welcome	Connection between Envision Roseville and the Campus Master Plan	Lack of willingness to pursue spaces when they are available
Maintenance of park infrastructure	Emphasis placed on ice skating opportunities	New recreation trends	Demand exceeding the resources of recreation programs as the population changes and grows
Community responsiveness	Opportunities to rethink existing space options	Remake of Rosebrook Park	People going elsewhere if programs are not offered
Fiscal Responsibility	Finding a way to capture silent members community members voices	Education info on flora/fauna	Keeping programs affordable while still having sufficient resources
Focus on sustainability	Quality of the Music	OVAL refrigeration and climate change	County Road C and lack of crossing to Rosebrook Park
Focus on long-range planning	Failure to relook at how spaces/amenities are being used at the time of replacement	Grants	Limited natural resources (climate change, LED lights, watering, etc.)
Balancing legacy programs with options for New Generations	Programming for teens	Boat launch	Long-term implications of persons not feeling included
Natural Resources forestry work	Lack of a youth softball complex	Partner with county/DNR on water activities	
Community Engagement		Donations on website	
Pickleball		Overpass/underpass connections	
Emerald Ash Borer programs		Find options/offerings that organically encourage bringing all people together	
Inclusive playgrounds			

Staff (care of participants and openness to receive feedback)			
Support for parks from staff, city council and community members			
New city website			
Great skating opportunities			

2023 Parks & Recreation Commission Goals

Goal		Timeframe	Action Steps	Assigned	Progress
1. On-going Parks and Recreation Goals					
#1.a	Find ways to be visible in the community utilizing an "equity lens"	Short Term Goal: Place special emphasis on equity to reach and understand the needs and barriers of underserved populations in Roseville. Long Term Goal: Track progress via equity analysis.		Matts-Benson	
#1.b	Understand resident's experiences with their local parks. Work to find the voice of underrepresented or unheard people or groups. Foster a sense of belonging.	Short Term Goal: Review data and demographics. Check with the Human Rights Inclusion and Engagement Commission on potential collaboration Utilize equity lens when providing feedback regarding items that the commission reviews. Commissioners make a conscious effort to informally engage with diverse individuals and perspective within the community and ensure that that feedback is shared and included. Long Term Goal: Utilize equity lens when providing feedback regarding items that the commission reviews (INTENTIONAL DUPLICATE).		Baggenstoss	
#1.c	Continue to support and advise Parks & Recreation staff on already identified projects and potential opportunities.	Short Term Goal: Research non-traditional recreation opportunities. Long Term Goal: Bring new ideas, projects or opportunities to the Commission for discussion and education.		Arneson Boulton	

2. Equity and Engagement					
#2.a	Keya Park Development Project	Short Term Goal: Encourage ongoing engagement with the neighborhood during the playground rebuild. Ensure that the goals of Dakota awareness and involvement is a part of the process. Long Term Goal: Encourage Commission participation at the Keya Park DYP celebration in 2024.		Ybarra Baggenstoss	

#2.b	Find and support ways to get residents outdoors	Short Term Goal: Long Term Goal:		Raygor	.
#2.c	New Park at Midland Legacy Estates	Short Term Goal: Support the new park development, including attending planning meetings and involvement throughout the project. Long Term Goal: Encourage Commission participation at the park opening celebration.		Arneson	

3. Natural Resources

#3.a	Focus on green spaces. Specifically, native animal habitat and climate change.	Short Term Goal: Long Term Goal:		Brown	
#3.b	Support and participate in the Natural Resource initiatives of the Parks and Recreation Department (Natural Resource Stewardship Program, Accelerated EAB Project, etc.)	Short Term Goal: Review options for the “next phase” of the Natural Resource management plan in Roseville and provide input. Long Term Goal: Ensure long-term sustainability of investment already made in the Natural Resources Management program.		Brown	

4. Visioning and Planning

#4.a	EnVision Roseville Project	Short Term Goal: Ensure that Parks and Recreation information is included in the Envision Roseville project. Once Envision Roseville project is complete, engage in conversations about how the information gathered should inform Parks and Recreation planning/services in the future. Long Term Goal:		Dahlstrom Arneson Brown	
#4.b	Campus Master Plan Project	Short Term Goal: Work to ensure that Parks and Recreation is factored into the Campus Master Plan and that there is thoughtfulness regarding the loss of Veterans Park. Long Term Goal: Once the viability of the project becomes clear, review options to offset the lost of park land and service space. Ensure that Parks and Recreation and affiliated group storage needs are considered in long-term facility planning.		Dahlstrom Matts-Benson	
#4 c	Review strategies for acquiring land that is beneficial to the Parks and Recreation System	Short Term Goal: Review Parks and Recreation System Master Plan's Approach to Land Acquisition.		Arneson	

Roseville Parks & Recreation Commission Agenda Item

DATE: August 8, 2024

ITEM: 5.a.

ITEM DESCRIPTION: Departmental Updates

Background

At each Commission meeting, city staff provides updates on Parks and Recreation activities and projects. Given the busy summer, staff will provide updates on a number of important initiatives that the Commission has discussed including:

- Rosefest 2024
- Summer Entertainment
- Recreation Management RFP
- Natural Resources Master Plan Update
- Lexington Park Playground Replacement
- New Park Construction

Recommendation

Receive report and provide feedback.

HARRIET ALEXANDER NATURE CENTER

Field Trips

2024/2025

PreK- Grade 6

Field Trips Basics

Harriet Alexander Nature Center (HANC) programs center hands-on, inquiry-based learning. Our staff naturalists are experienced environmental educators with a passion for engaging students in nature exploration. Whether meeting live animals, dipping a net into the marsh water, or discovering life under a log, HANC visits provide knowledge and memories that students carry for a lifetime.

Location

Harriet Alexander Nature Center (HANC) is a 52-acre park with forest, marsh, and representative prairie habitat. Trails wind through the forest and boardwalk traverses the marsh. Our interpretive center features two classrooms and an interactive exhibit space.

Extend your visit with lunch, garden walks, or playgrounds: HANC is also a part of Roseville's Central Park. Central Park has 225 acres of parkland connected by trail and featuring natural spaces, playgrounds, ball fields, shelters, and, right across the street from HANC, the Muriel Sahlin Arboretum.

Program Fees

Our on-site, 1.5 or 2 hour programs are \$5.50/student with a \$65 minimum. Parents and chaperones are free with a suggested adult-to-student ratio of 1:8. Groups or schools scheduling more than one trip in a school year qualify for discounted pricing of \$5/student. Large groups of 100+ students, extended programs, and outreach, inquire for specific pricing.

Scheduling

To book your field trip or inquire further, please email naturecenter@cityofroseville.com, or call Program Supervisor Deon Haider at 651-792-7163

Foundations Programs

Foundations Programs introduce a variety of nature experiences through outdoor time, animal meetings, and hands-on learning. Students will rotate to different stations that all build upon a central theme. Designed to meet students wherever they're at, foundations programs are perfect for groups looking for a broadly-focused program, mixed-aged groups, or students that aren't yet comfortable in nature.

PreK - Grade 1 **Get to Know Nature**

Research points to the importance of childhood experiences in nature for promoting environmental literacy, physical and mental health, and brain development. In this program, we focus on building an early relationship with nature through exploration and sensory activities. Students will investigate outdoor spaces, meet a live animal, and participate in hands-on experiences that vary with the seasons.

K - Grade 6 **Our Nature Neighbors**

In this program, students will be introduced to our nature neighbors: the different ecosystems and organisms that call Minnesota home. We'll investigate two distinct natural spaces, meet a live wildlife ambassador, and join in a habitat game. Students will also practice science, critical thinking, collaboration, and communication skills that help them engage with the natural environment and each other.

Concentrations Programs

Concentrations Programs focus on a specific nature topic. Students will observe outdoor phenomena, and use scientific tools, models and artifacts to investigate questions and draw conclusions. These programs are designed to supplement classroom learning with hands-on nature-based activities. Typically, concentrations programs last 1.5 hours. This may be adjusted based on group needs.

Animal Architects (Grade 1-6)

From digging holes to building bridges, many animals, including humans, can change their environments to better suit their needs. We'll also learn about some human actions with negative consequences, and practice solutions.

Animal Upbringings (K - Grade 2)

How do baby animals and plants compare to their parents? We'll use pictures, artifacts, models, and outdoor observations to notice similarities and differences and discover some of the varied ways animal parents care for their babies.

Case Study: Birds, Insects, Mammals, Reptiles, or Trees (Grade 1 - 6)

In this deep-dive into a particular group of organisms, we'll examine its different parts and learn to identify some of the most common species. Younger students will look at the organism's life cycle, needs, and habitat(s). Older students will examine ways an organism interacts with its environment, and identify how traits can vary within organism families and species. Insect and reptile programs include meeting live ambassador animals.

Animal Olympics (K - Grade 6)

Explore animal movements! Students will interact with animal artifacts to understand how different species excel in their natural abilities, and cheer each other on as they mimic local wildlife in physical challenges.

Art in Nature (K- Grade 6)

Nature is full of patterns and inspiration. We'll explore outdoors and items from the collections, then students will create their own small natural art projects to reflect their experience.

Creature Features (K- Grade 6)

Teacher Favorite!

From tails to scales, jaws to claws, animals have a variety of interesting adaptations that make up who they are. In this program, we'll relate animal parts to their function through observation of both live animals and specimens. Students will make comparisons, identify patterns, and recognize how animal structures help in survival. This program includes meeting a live ambassador reptile.

Fur or Scales? (K - Grade 1)

What do mammals and reptiles have in common and what makes them different? Student will explore this question as they practice sorting and classification of animals and artifacts. This program includes meeting a live ambassador reptile.

Habitat Helpers (K - Grade 6)

Learn about environmental stewardship! Students will investigate human impacts on habitats, engage in habitat restoration activities, and discover ways to help wildlife thrive.

Humans in the Biosphere (Grade 2-6)

Humans are part of nature too! We'll look at how indigenous cultures and communities were historically influenced by plants, animals, and land, and discover ways all of us are still connected to nature. Students will go on a scavenger hunt to find connections between wild organisms and everyday items .

Seasonal Sensations (K- Grade 2)

How does weather change throughout the year? What types of weather can we expect in each season? We'll use our senses to make observations of the weather, identify patterns and changes, and practice responding to different types of weather.

Tapping Time (Grade 1-6)

Discover how syrup makes it from tree to table, and find out more about the history and science behind this sweet treat. Students will learn to identify maple trees, tap a tree, and, experience the flow of sap through role-play. Plus, taste MN-made real maple syrup. A pancake cooking session can also be added for an additional fee. Available in spring only.

Water in Motion (Grade 2-6)

Learn why water is so important and how it shapes Earth and life here. With students acting as water molecules, we'll role-play how water moves throughout Earth's systems in a variety of ways and forms. We'll also experiment with the processes of evaporation and condensation.

Habitat Investigation (K - Grade 6)

In this program, students will discover the relationships between what animals need and the place they live. We'll visit different habitats and observe the diversity of plant and animal life, looking for both patterns and contrasts. We'll discover why different types of animals live in different places. Students will also play a habitat survival game. This program can also be adapted to a deeper study of one specific habitat: forest, marsh, or prairie.

Plant Parts and Purposes (K- Grade 6)

In this program, students will explore what makes plants unique. We'll look closely at individual plants and match up parts to their functions. We'll also learn the life cycle of a plant and figure out why different plants grow in different areas.

Seed Investigation (Grade 2-6)

We will examine a variety of different botanical fruits and discover the variety of ways seeds are dispersed. Students will learn about how different structures perform different functions, and build seed models of their own.

Tracking Weather (Grade 3-6)

How does weather happen? Students will collect data and make observations of current conditions. We'll experiment with how air temperature and pressure affects the weather we experience.

Wetland Investigation (Grade 4-6)

In this program, students will conduct a robust study of the HANC wetland. We'll use various scientific tools to study plant life, animal life, and water quality. Small groups will collect and record data and share their findings with the group. Recommended for groups with some topical experience and background.

Place-Based Programs

Come multiple times for a comprehensive approach!

Place-Based programs are designed for groups visiting HANC several times. Through repeated visits, students will build on subject matter, become familiar with scientific tools, terms, and concepts, and develop a relationship with this specific natural space.

In each groups' first visit, we will go over expectations and guidelines and get comfortable with the space, indoors and out. We'll also introduce activities that will carry through each visit. In each group's final visit, we will do a reflection of the whole year.

Outreach Programs

Can't make it to HANC? Let us come to you! Many of our programs can be done remotely. Staff naturalists can bring materials and animals to offer a taste of the nature center experience. Currently we are only doing outreach programs within 10 miles of HANC.

Curious about how standards line up, custom programs, or pre-visit materials? Let's talk!

SUMMER GYMNASTICS

SHOWCASE WEEK 2024!!!

AUGUST 5TH - AUGUST 8TH

After great feedback from last year's Showcase Week, we will be putting it on again this summer! Your child will get the opportunity to show off what they have learned in our program during a low-key, non-stressful demonstration. We will pull out the bleachers in the gymnastics center and invite friends and family to come in and watch the stations up close!

SHOWCASE SCHEDULE

MONDAY CLASSES - AUGUST 5TH

TUESDAY CLASSES - AUGUST 6TH

WEDNESDAY CLASSES - AUGUST 7TH

THURSDAY CLASSES - AUGUST 8TH

Preschool classes will continue to be held upstairs during Showcase Week, but will come down into the "Big Gym" the last 10-15 minutes of class.

ROSEVILLE SKATE SCHOOL FALL 2024

Hit the ice this Fall with Roseville Skating School! ISI recreational skating lessons are for beginning to advanced skaters.

Tuesdays, September 10-November 5 (No class 9/24)
